

LEFT ATRIAL APPENDAGE CLOSURE (LAAC)

DISCUSSION GUIDE

PLAN FOR YOUR APPOINTMENT

Here are some questions you may wish to ask your doctor to help make the most of your appointment:

- Are blood thinners causing my symptoms?
- Will my symptoms get better?
- What can I do to lessen or end these symptoms?
- What is my risk of stroke?
- What are my risks being on a blood thinner?
- What treatment options do you think are best for me?
- Do you think I meet the criteria of a left atrial appendage closure (LAAC)?
- What types of left atrial appendage closure (LAAC) treatment options are available to me?
- How effective are they?
- What are the advantages and disadvantages of each of these treatment options?
- What results have other patients experienced with each treatment option?

CAUTION: Indications, contraindications, warnings, and instructions for use can be found in the product labelling supplied with each device or at www.IFU-BSCI.com.

Individual symptoms, situations, circumstances, and results may vary.
