

March 2026

Dear Patient,

We recently provided your heart doctor with additional information regarding battery performance about some Boston Scientific pacemaker and cardiac resynchronization therapy pacemaker (CRT-P) devices. Your doctor will be able to tell you how your device may be affected and can work with you to make the best plan based on your individual health needs.

What should you do?

- Keep and attend all your scheduled medical and device check appointments.
- Talk to your doctor about the best steps for managing your pacemaker system.

At Boston Scientific, patient safety is our priority and our constant focus. We are committed to working closely with you and your doctor. We recommend that you discuss this letter with your doctor, who knows best how this new information may affect you.

Sincerely,

Seamus Gallagher
